As you may already guess from the cover, in this sixth issue of Taking Over we want to give more space – nearly double the usual– to tags.

Basic expression of writing and fundamental to the evolution of letters, tags are much more than mere scribbles: tagging is a battelefield where confrontation and excellence are not that easy.

Enjoy

Taking Over Team

Come potete intuire già dalla copertina, in questa sesta uscita di Taking Over abbiamo deciso di dedicare un maggiore spazio – quasi il doppio – alle tag.

Espressione base del writing e fondamenta dell'evoluzione delle lettere, le tag sono ben più che semplici scarabocchi, sono un campo in cui confrontarsi ed eccellere è cosa non da poco.

Buona visione

Taking Over Team

Legal Disclaimer
Taking Over and the website www.orgconfusion.com/to do not encourage nor approve any illegal or vandalic activity on private and public property. The aim of this fanzine is to monitor and show what happens in the graffiti writing culture, a phenomenon that is all around us.
The pictures we publish, when not taken by the team itself while walking in the streets, are sent to us anonimously. We take no responsibility for any illegal content that can be found in any website linked to ours, as we don't always agree with opinions expressed by other people on other websites or magazines.
